

Exploring Asia Pacific's Energy Future

18 - 19 June 2024 | The Kia Oval, London

TUESDAY 18 JUNE 2024 (ORAL TECHNICAL PROGRAMME)

Session 1: Keynote Session – Asia Pacific's Energy Future		
09:00-09:10	Introduction and Welcome	SEAPEX & GESGB Presidents
09:10-09:35	Navigating the Tides: A Look at Company Growth Strategies, Challenges and Enablers in Asia Pacific's E&P Landscape	Clare Barker-White / Antonio Dimabuyu S&P Global Commodity Insights
09:35-10:00	Exploring Across APAC - CCUS, ILX and Other Reasons to Be Optimistic	Shankar Krishnan Enverus
10:00-10:25	<i>To be confirmed</i>	Philippines Department of Energy
10:25-10:55 – Refreshment Break		
Session 2: Regional Tectonics and Basin Perspectives		
10:55-11:40	Southeast Asia Tectonics, Palaeogeography and Palaeoclimate	Bob Morley and Jon Teasdale Palynova / Geognostics
11:40-12:05	Cenozoic Palaeogeographies of Sundaland: Unveiling the Dynamics from Mountain Uplifts to Peneplanation	Amy Gough Heriot-Watt University
12:05-12:30	Technical Overview and Development Status of the Prolific Middle Jurassic Plover Formation Gas Fairway: Timor-Leste, Australia and Indonesia	Andy Butler SundaGas
12:30-12:55	Petroleum Potential of Bangladesh	Ed Bowles Kris Energy
12:55-13:55 – Lunch Break		
Session 3: Indonesia – Exploration Resurgence		
13:55-14:20	Exploration as a Catalyst for Strategic Growth: The Geng North Success Case in Kutei Basin, Indonesia	Lorenzo Meciani Eni
14:20-14:45	Optimizing Basement Fracture Exploration in a Mature Basin: Lessons from the South Sumatra Basin's Success and Failures	Aveliansyah Pertamina
14:45-15:10	New Exploration Play Concepts in the North Sumatra Basin, Indonesia: Subsurface Insights from Around Timpan-1	Mark Reynald Halliburton
15:10-15:35	New Onshore Seismic and Gravity Data Confirms the Potential for Giant-Sized Discoveries within the Seram Fold-Thrust Belt of Eastern Indonesia	Kim Morrison Lion Energy
15:35-16:05 – Refreshment Break		
Session 4: Malaysia – The Next Exploration Cycle		
16:05-16:30	Exploration Sabah: The Past, Present, Future	Colin Grant Shell
16:30-16:55	Revisiting East Sabah Prospectivity Based on New Tectonic Understanding	Fauzi Deraman Petronas
16:55-17:20	The Fractured Basement of Malaysia - a Comparison with Vietnam	Melissa Johansson Geode Energy
17:20-17:45	Further Exploration Insights from the MultiClient 3D in Offshore Sarawak, Malaysia	Tad Choi PGS / TGS / slb
17:45 – Evening Networking Reception		

Exploring Asia Pacific's Energy Future

18 - 19 June 2024 | The Kia Oval, London

WEDNESDAY 19 JUNE 2024 (ORAL TECHNICAL PROGRAMME)

Session 5: Keynote Session – Asia Pacific in Energy Transition		
09:00-09:25	Energy Perspectives: APAC's Role in a Changing ET Landscape	Dane Inglis Rystad
09:25-09:50	The World-Class Caprock at Tangguh Giant Gas Fields and its Importance to Potential CO2 Confinement in Bintuni, West Papua, Indonesia	Albertus Pradipta bp
09:50-10:15	Geothermal Exploration: High-Resolution Airborne Technologies in East Asia	Jonathan Watson Metatek
10:15-10:45 – Refreshment Break		
Session 6: Geophysical Applications – From Basin to Reservoir		
10:45-11:10	Unveiling A Hidden New Sub-Basin Potential in Bird's Head Papua: An Impact to New Petroleum Systems Potential	Hitler Sijabat Pertamina
11:10-11:35	Exploring Papua New Guinea's Eastern Fold Belt: 2D Seismic Operations in a Challenging Onshore Environment	Reece Murrell ExxonMobil
11:35-12:00	Revitalizing Natuna Dataset to Screen for Prospect Opportunities Using Relative Elastic Impedance	Jonathan Denly TGS
12:00-12:25	Brainstorm Solutions in Seismic QI studies on Malay Basin	Jalil Nasser Ping Petroleum / Ikon Science
12:25-13:25 – Lunch Break		
Session 7: New Insights in Mature Basins		
13:25-13:50	Exploring New Insights Off the Coast of West Sarawak	Hafiz Bin Jalil Petronas
13:50-14:15	We Used to See Eustasy as the Key to SE Asia Stratigraphy, but Now We are Not So Sure: An Application of a New Tectono-Stratigraphic Framework for Off the Coast of Sarawak Malaysia	Jonathan Brown KUFPEC
14:15-14:40	A New Generation of Plays from Modern Geological Work in Sarawak	<i>To be confirmed</i>
14:40-15:05	Warts and All. Follow-up Exploration and Appraisal Drilling of the Kingia Sandstone, Northern Perth Basin Yields New Levels of Complexity on What was Assumed to be Regionally Ubiquitous Gas Play	Anthony Cortis Strike Energy / Igesi Consulting
15:05-15:35 – Refreshment Break		
Session 8: New Frontiers		
15:35-16:00	New Insights for the Onshore Kendeng-Randublatung Frontier Zone, East Java Basin	Nico Bianchi RISC
16:00-16:25	Beyond Pinnacle Reef Plays: Targeting De-Risked Coarse Clastic Plays West of Palawan, Philippines	Karyna Rodriguez Searcher Seismic
16:25-16:50	Sandy Mixed Turbidite Contourite Depositional Reservoir Systems Illuminated by New 3D-Seismic Data, Offshore Papua New Guinea	Alaister Shakerley Larus Energy
16:50-17:15	The New Ireland Basin, Papua New Guinea – a Mountain of Gold Floating on a Sea of Gas Condensate	Brent McInnes Peak Oil
17:15-17:30	Closing Remarks / End of Asia Pacific Conference 2024	
18:00 – Evening Social Drinks hosted by GESGB Young Professionals (The Rosy Hue Pub)		

Exploring Asia Pacific's Energy Future

18 - 19 June 2024 | The Kia Oval, London

TUESDAY 18 & WEDNESDAY 19 JUNE 2024 (TECHNICAL POSTER DISPLAYS)

1	New Exploration Ideas in SE Asia	Angus Ferguson	Bright Spot Consultants
2	What's my line? A passing fancy or here to stay?	William Dickson	DIGs
3	Reimagined Penyu Basin, Offshore Peninsular Malaysia: Unveiling Untapped Potential Through Focused Efforts	Mohd Firdaus Ali	Petronas
4	Derisking Exploration and Elucidating Prospective Areas in the Frontier West Sangatta Area of East Kalimantan Province in Indonesia	Andi Mardianza	Pertamina Hulu Energi (PHE)
5	Exploring the Existing Play in the South Sumatra Basin: Proven and Potential of the Baturaja Formation	Riky Hendrawan Bayu Pandito	Pertamina Hulu Rokan
6	Sedimentary Provenance of the Cenozoic Deposits of Natuna Island, Indonesia: Implications for Onshore to Offshore Correlation and CCS in Sundaland	Amy Gough	Heriot-Watt University
7	A Solution for Complex Stratigraphic Issues in Tectonically Active Southeast Asian Basins: New Workflows and Wellsite Applications	Steve Noon	Future Geoscience
8	Application of Real-Time Isotope Logging in Central Luconia Province for Reservoir Evaluation and Assessing Seal Competency	Ahmad Shoeibi	Geolog Kuwait
9	Integrated Electrofacies Analysis and 3D Seismic Interpretation of an Oligo-Miocene Carbonate Platform to Evaluate Reservoir Zones, NE Java Basin, Indonesia	Ruth Jarvis	CGG
10	Depth Imaging Insights: Full Tensor Migration Maps Structural Complexity in Malaysia's Geological Landscape	Colm Murphy	Bell Geospace
11	What we have learned over 20 years of CCUS projects	Rick Schrynemeekers	Amplified Geochemical Imaging (AGI) / PT Geoservices
12	A Fit for Purpose CCUS Screening and Areal Development Plan Workflow for a Geologically Complex and Integrated Network of Clustered Assets in Asia Pacific	Aizat Rusli	ERCE
13	The Potential for Evolving from State Funded Investment in Geologic Carbon Stores to a Self-Sustaining Carbon Storage Commodity Market	Andy Kirchin	RPS
